

SENIOR LEADERSHIP TRAINING

For Aspiring and Newly Appointed Senior Leaders

The Senior Leadership Team is the key leadership group within a school and senior leaders make a major contribution to the school's strategic planning and overall performance. They are expected to lead by example as a teacher and a manager and are accountable for the quality of education within their subject or phase of responsibility; an accountability that will intensify with the proposed introduction of the 'Quality of Education' judgement within the new Ofsted framework. This course will ensure prospective and current senior leaders have the skills, qualities and insight to be highly successful in their roles and provide them with the knowledge and confidence to address the extensive challenges they will face.

Programme Content

- | | |

Feedback From 2018-19

Very helpful and practical. I feel I have grown in confidence.
Great to share experiences and ideas with colleagues in the same position.
Fantastic insight into Senior Leadership. Lots of things to take forward.
