

WHO WE ARE

WHAT IS PROJECT TURNOVER?

Project TurnOver is established in the UK

Project TurnOver has for over five years in Holland helped vulnerable young people aged 12 years and over, who are not in education, training or employment (NEET), to get their lives back on track and into education, training, apprenticeships and/or employment. We have an 80% success rate.

We started Project Turn-Over in the UK in October 2019 at Staines RFC, Feltham. If you would like to join our next course, these are the steps you need to take:

* Complete the online form: <https://turnoveruk.wufoo.com/forms/mm2wsix1obb759/>

* Attend our Introduction day on 9th April 2021 or attend Zoom call meeting (so we can meet you and update you on what we do)

* Your place will be confirmed via email

Thanks to the amazing support of *Virtual Clarity*, the course is fully funded and there is no charge for participants to attend.

The TurnOver programme also offers essential enrichment and sporting activities which supports the development of the whole individual through not only improving their mental but physical wellbeing as well. Those who join the Turn-Over programme may be pupils who have dropped out of school (or run the risk of dropping out), or those who have become entangled with the police and/or judicial authorities or have been in contact with social and welfare services. By combining life skills training with playing in a team, the programme accredits the values and heart of the rugby community to its success.

→ WHY RUGBY?

A 'Turn-over' is when a team re-gains possession of the ball and therefore takes control of the game. Project Turn-Over aims to reverse the current situation of participants, allowing them to re-gain control of their future.
