

# EARLY YEARS ENVIRONMENTAL REVIEW 2021-2022

**COMPLETED BY:**

(Name and Age)

Welcome to this year's Environmental Review, before you get started here are some things you need to know:

- If your answer to a question is yes, then tick the box below the smiley face. If your answer to a question is no, tick the box below the sad face.
- Calculate your score for each topic by counting how many ticks you have under the smiley face column.
- If you don't know the answer to a question, that is OK, simply move on to the next question.
- You can calculate your total score (out of 30) by adding all of your topic scores together.
- Finally, do not worry if you have any low scores - this just means there are lots of wonderful actions you can complete!
